

Mathematics

CoreSpring's collection of over 36,000 formative assessment items supports grades 1-12. Our hand picked content is sourced from well respected organizations, sites, and assessment writers such as Illustrative Mathematics, Engage NY, New Classrooms Innovation Partners, Achieve the Core, and New England Common Assessment Program. Each curated item is reviewed for rigor and alignment to CCSS to ensure the items are focused on college and career readiness. The collections include a wide variety of question types so teachers can find the best way to evaluate students.

Common Core State Standard Coverage

Grade	Math	
	CCSS Standard Coverage	Average Items per Standard
1-3	81%	33
4-5	99%	173
6-8	99%	200
9-12	81%	66

Many of the items in our math collection are multi-part questions that contain multiple interactions as well as multi-media to help with student engagement and increase rigor. 100% of our items are tagged to Common Core State Standards and many items are tagged to the Clusters and Math Practice Standards for the best alignment. In addition to the standards, items are tagged with a Bloom's Taxonomy and Depth of Knowledge level to make sure each item is rigorous.

Item Type Count by Grade Level

Grade	Items that Contain these Item Types		
	Simple Types ¹	TEI ²	Total ³
Elementary Total	8,299	2,448	10,583
Middle School Total	14,947	4,108	18,836
High School Total	7,120	1,859	8,723
Total⁴	28,977	8,093	36,471

¹Simple Types- Constructed Response, Multiple Choice, Open Ended

²TEI- Choice Matrix, Short Answer-Enter Text, Select Evidence in Text, Evaluate an Expression, Categorize, Short Answer- Drop Down, Short Answer- Drag and Drop, Graph Lines, Number Line, Plot Points, Ordering

³Some items may contain Simple Types and TEIs

⁴Some items may be tagged across multiple grade levels
